Year in Review

COCHISE COLLEGE

Letter

From the President

Reflecting on my transition from Executive Vice President to President of Cochise College, I am inspired by the dedication, innovation, and teamwork that have defined 2024–2025. Together, we honor the legacy of our first six decades while embracing transformative leadership changes, innovative programs, and ever-stronger community partnerships.

The theme during the 2024 staff and faculty convocation was Our Why: Honoring our Past and Preparing for our Future. As we adapt to the dynamic needs of higher education, it is even more important that we look to our "why," as we continue to seek innovative and creative ways to inspire passion and purpose through the education of our students to enhance our community. This Year in Review captures our journey, highlighting the milestones that mark our path forward and reaffirming our commitment to excellence in education and community engagement.

We celebrated new beginnings by welcoming our first cohort of bachelor's students and holding the grand opening of Bugen Hall, the first student housing facility on the Sierra Vista Campus.

We said farewell to several long-serving leaders and welcomed talented colleagues to guide us forward. We thank Dr. J.D. Rottweiler for 15 years of visionary service, honor Mr. Dennis Nelson, Mr. Tim Quinn, and Mrs. Jane Strain for their remarkable service on our Governing Board, and welcome Ms. Stephanie Money and Mr. Steven Leeder in their place.

Our students are truly an inspiration, and we celebrate those who have achieved statewide and national successes. I'm profoundly grateful for the hard work and dedication of our staff, faculty, and outstanding students. Their passion fuels our mission and lays the groundwork for growth, access, and community impact as we provide inclusive and accessible educational opportunities that support social responsibility, community engagement, meaningful careers, and lifelong learning.

We look forward to sharing these moments with you in the 2024–2025 Year in Review.

Local Opportunities Inspire Student Journeys to Success

Don't we all need and appreciate feel-good stories? As a former board member of the Boys & Girls Club of Bisbee, and an enthusiastic current member of the Cochise College Foundation board of directors, I can tell you the following makes both organizations proud and will warm your heart.

A native of Naco, Arizona, Priscilla Venegas grew up surrounded by the beauty of the desert, a close-knit community, and the law enforcement presence that helps keep the peace. So when the time came to go to college, she felt drawn to the study of administration of justice but also a bit uncomfortable about leaving the area.

She chose to enter the welcoming environment of Cochise College, where the Ralph Italia Memorial Scholarship is helping her prepare for a career whose impact she already sees every day. Italia was a college employee whose family and friends established the scholarship in his memory after he passed away. Since 2007, the endowment and the awards it generates have steadily grown through stable investment management. It's also advanced Italia's legacy of caring by helping students pursue studies in administration of justice and careers in law enforcement.

The scholarship is not need-based. Rather, it reaches students with a solid academic record. It's helped Venegas cover the cost of books, a computer, and fuel to get to class. At Cochise, she's part of the Student Support Services / TRiO program, which supports low-income, first-generation and disabled students with tailored advising and tutoring, volunteer and leadership opportunities,

career development and testing, financial literacy training, and visits to four-year institutions.

"I have enjoyed all of my classes, but my favorite has been psychology with Dr. Quijada. And, without TRiO, I would have been lost."

Venegas works at the Boys & Girls Club of Bisbee (BGCB) and notes that she has seen changes in herself because of her experiences at Cochise College. In the future, she plans to be part of the U.S. Customs and Border Patrol with the hopes of one day having her own squad and being a leader. She's also interested in real estate.

"Being here at the college and taking classes has honestly helped me be a more understanding person and be more patient. It's made me a good example for the kids I

work with. Cochise College has helped me think clearly, be more open-minded, and be aware of what is right and wrong. If you try, anything is possible to accomplish."

And there you have it...an example of the young people that BGCB and Cochise College set on their way to responsible adulthood. The Cochise College Foundation plays such an important role too, by ensuring your donations are secure, earn appropriate, stable returns, and end up supporting the journey of students like Priscilla. We couldn't do it without your help.
