

1. Product and Company Identification

Material name	SULFURIC ACID
Version #	06
Revision date	05-11-2010
CAS #	Mixture
Product Codes	J.T.Baker: 5030, 5137, 5374, 5802, 5815, 5858, 5859, 5868, 5889, 5897, 5971, 5997, 6163, 6902, 9671, 9673, 9674, 9675, 9681, 9684, 9690, 9691, 9697, 9864, IM2876 Mallinckrodt: 2876, 2877, 2878, 2879, 2900, 2904, 3780, 5557, H644, H976, H996, V651
Synonym(s)	Oil of vitriol * Babcock acid * Sulphuric acid
Manufacturer	Mallinckrodt Baker, Inc.
Address	222 Red School Lane Phillipsburg, NJ 08865 US
Customer Service	800-582-2537
24 Hour Emergency	908-859-2151
Chemtrec	800-244-4444

2. Hazards Identification

Emergency overview	DANGER Poison Material reacts with water. Corrosive. Causes severe skin and eye burns. May be fatal if swallowed. Harmful if inhaled. Cancer hazard. Prolonged exposure may cause chronic effects. Harmful if absorbed through skin.
OSHA regulatory status	This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication).
Potential health effects	
Routes of exposure	Inhalation. Ingestion. Skin contact. Eye contact.
Eyes	Corrosive to the eyes and may cause severe damage including blindness. Causes eye burns. This product may cause severe irritation, redness, or blurred vision. Do not get this material in contact with eyes.
Skin	Corrosive. Causes severe skin burns. Do not get this material in contact with skin.
Inhalation	Corrosive. Causes burns. May cause damage to mucous membranes in nose, throat, lungs and bronchial system. Inhalation of vapor or mist may cause lung edema. May cause cancer by inhalation. Prolonged inhalation may be harmful. Do not breathe dust/fume/gas/mist/vapors/spray.
Ingestion	Corrosive. May be fatal if swallowed. Components of the product may be absorbed into the body by ingestion. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract. May irritate and cause stomach pain, vomiting and diarrhoea. Do not ingest.
Target organs	Eyes. RESPIRATORY SYSTEM. Skin. Teeth.
Signs and symptoms	Irritation of nose and throat. Irritation of eyes and mucous membranes.
Potential environmental effects	Components of this product are hazardous to aquatic life. May cause long-term adverse effects in the environment.

3. Composition / Information on Ingredients

Components	CAS #	Percent
SULFURIC ACID	7664-93-9	90 - 100
Other components below reportable levels		> 2.5

4. First Aid Measures

First aid procedures

Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Skin contact	Immediately flush skin with plenty of water. For minor skin contact, avoid spreading material on unaffected skin. Wash clothing separately before reuse. Get medical attention immediately.
Inhalation	Move to fresh air. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Call a physician or poison control center immediately.
Ingestion	Do not induce vomiting without advice from poison control center. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse mouth thoroughly. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

General advice Immediate medical attention is required. IF exposed or concerned: Get medical advice/attention. In case of shortness of breath, give oxygen. Keep victim warm. Keep victim under observation. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire Fighting Measures

Flammable properties	Not flammable, but reacts with most metals to form flammable hydrogen gas. Substance will react with water releasing flammable, toxic or corrosive gases and runoff.
Extinguishing media	
Suitable extinguishing media	Foam. Dry powder. Carbon dioxide (CO ₂). Do not use water as an extinguisher. Water spray should be used to cool containers.
Unsuitable extinguishing media	Water.
Protection of firefighters	
Specific hazards arising from the chemical	Water reactive material.
Protective equipment and precautions for firefighters	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.
Hazardous combustion products	May include oxides of sulphur.

6. Accidental Release Measures

Personal precautions	Ventilate the area. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them.
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not contaminate water.
Methods for containment	Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Prevent entry into waterways, sewer, basements or confined areas.

Methods for cleaning up

Should not be released into the environment.

Large Spills: Dike far ahead of spill for later disposal. Neutralize spilled material with crushed limestone, soda ash or lime. Absorb in vermiculite, dry sand or earth and place into containers. DO NOT use combustible materials such as sawdust.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece).

Never return spills in original containers for re-use. Clean surface thoroughly to remove residual contamination.

J. T. Baker NEUTRASORB® acid neutralizers are recommended for spills of this product.

7. Handling and Storage

Handling

Do not get this material in contact with eyes. Do not get this material in contact with skin. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not get this material on clothing. Do not use in areas without adequate ventilation. Wear personal protective equipment. Avoid prolonged exposure. Wash thoroughly after handling. Use caution when combining with water; DO NOT add water to acid, ALWAYS add acid to water while stirring to prevent release of heat, steam and fumes.

Storage

Store in appropriate chemical storage area. Store in a well-ventilated place. Keep container tightly closed. Keep container dry. Do not store near heat sources or expose to high temperatures. Protect against direct sunlight. Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs.

8. Exposure Controls / Personal Protection

Occupational exposure limits**ACGIH****Components****Type****Value****Form**

SULFURIC ACID (7664-93-9)

TWA

0.2000 mg/m3

Thoracic fraction.

U.S. - OSHA**Components****Type****Value**

SULFURIC ACID (7664-93-9)

PEL

1.0000 mg/m3

TWA

1.0000 mg/m3

Engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal protective equipment**Eye / face protection**

Do not get in eyes. Chemical goggles are recommended. Use face shield in case of splash risk. Provide an emergency eye wash fountain and quick drench shower in the immediate work area.

Skin protection

In case of splashes: Wear apron or special protective clothing. Impervious gloves. Do not get this material in contact with skin. Do not get this material on clothing.

Respiratory protection

If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection. Chemical respirator with acid gas cartridge. WARNING! Air-purifying respirators do not protect workers in oxygen deficient atmospheres. Do not breathe dust/fume/gas/mist/vapors/spray.

General hygiene considerations

Do not get in eyes. Do not get this material in contact with skin. Do not get this material on clothing. When using, do not eat, drink or smoke. Keep away from food and drink. Handle in accordance with good industrial hygiene and safety practice.

General

Structural firefighters protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations.

9. Physical & Chemical Properties

Appearance	Aqueous solution.
Color	Clear.
Odor	Odorless.
Odor threshold	Not available.
Physical state	Liquid.
Form	Liquid.
pH	1 N solution (~5% w/w) = 0.3; 0.1 N solution (~0.5% w/w) = 1.2
Melting point	3°C (100%), -32°C (93%), -38°C (78%), -64°C (65%).
Freezing point	Not available.
Boiling point	537.8 °F (281 °C) estimated
Flash point	Not available.
Evaporation rate	Not available.
Flammability	Not available.
Flammability limits in air, upper, % by volume	Not available.
Flammability limits in air, lower, % by volume	Not available.
Vapor pressure	0 hPa estimated
Vapor density	3.4
Specific gravity	1.84 (98%), 1.40 (50%), 1.07 (10%)
Relative density	Not available.
Solubility (water)	Miscible.
Partition coefficient (n-octanol/water)	Not available
Auto-ignition temperature	Not available.
Decomposition temperature	644 °F (340 °C)
Percent volatile	5 % estimated
Molecular formula	H ₂ SO ₄ in H ₂ O

10. Chemical Stability & Reactivity Information

Chemical stability	Material is stable under normal conditions. Material reacts with water.
Conditions to avoid	Moisture. Heat.
Incompatible materials	Water. Cyanides. Strong oxidizing agents. Strong reducing agents. Metals. Halogens. Potassium Organic compounds. May be corrosive to metals.
Hazardous decomposition products	Sulphur oxides. Irritating and/or toxic fumes and gases may be emitted upon the products decomposition.
Possibility of hazardous reactions	Hazardous polymerization does not occur.

11. Toxicological Information

Toxicological data

Product	Test Results
SULFURIC ACID (Mixture)	Acute Inhalation LC50 Guinea pig: 0.0253 mg/l estimated Acute Inhalation LC50 Rat: 365 mg/l estimated

Components

	Test Results
SULFURIC ACID (7664-93-9)	Acute Inhalation LC50 Rat: 347 mg/l 1.00 Hours

Components**Test Results**

SULFURIC ACID (7664-93-9)

Acute Oral LD50 Rat: 2140 mg/kg

* Estimates for product may be based on additional component data not shown.

Acute effects

Causes burns.

Chronic effects

Hazardous by OSHA criteria. Prolonged exposure may cause chronic effects.

Carcinogenicity

Hazardous by OSHA criteria. Risk of cancer cannot be excluded with prolonged exposure.

ACGIH Carcinogens

SULFURIC ACID (CAS 7664-93-9)

A2 Suspected human carcinogen.

IARC Monographs. Overall Evaluation of Carcinogenicity

SULFURIC ACID (CAS 7664-93-9)

1 Carcinogenic to humans.

US NTP Report on Carcinogens: Known carcinogen

SULFURIC ACID (CAS 7664-93-9)

Known carcinogen.

Skin corrosion/irritation

Hazardous by OSHA criteria.

Epidemiology

Not available.

Neurological effects

Not available.

12. Ecological Information**Ecotoxicological data****Product****Test Results**

SULFURIC ACID (Mixture)

LC50 Fish: 44.21 mg/l 96.00 Hours estimated

Components**Test Results**

SULFURIC ACID (7664-93-9)

LC50 Western mosquitofish (Gambusia affinis): 42 mg/l 96.00 Hours

* Estimates for product may be based on additional component data not shown.

Ecotoxicity

Components of this product are hazardous to aquatic life.

Environmental effects

Harmful to aquatic organisms.

Persistence and degradability

Not available.

13. Disposal Considerations**Waste codes**

D002: Waste Corrosive material [pH ≤2 or ≥12.5, or corrosive to steel]

Disposal instructions

All wastes must be handled in accordance with local, state and federal regulations. Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose in accordance with all applicable regulations.

Contaminated packaging

Since emptied containers retain product residue, follow label warnings even after container is emptied.

Saf-T-Data

Health: 4 - Extreme (Poison)
Flammability: 0 - None
Reactivity: 2 - Moderate
Contact: 4 - Extreme (Corrosive)
Lab Protective Equip: D - GOGGLES & SHIELD; LAB COAT & APRON; VENT HOOD; PROPER GLOVES
Storage Color Code: W - White (Corrosive)

16. Labeling Info

Label Hazard Warning

DANGER -- POISON
Material reacts with water.
Corrosive. Causes severe skin and eye burns. May be fatal if swallowed. Harmful if inhaled.
Cancer hazard. Prolonged exposure may cause chronic effects. Harmful if absorbed through skin.

Label Precautions

Do not get in eyes, on skin, or on clothing. Do not breathe mist or vapor. Keep container closed.
Use only with adequate ventilation. Wash thoroughly after handling. DO NOT allow water to come into contact with this material.

Label First Aid

Immediately flush eyes with plenty of water for at least 15 minutes. Immediately flush skin with plenty of water. If gas/fume/vapor/dust/mist from the material is inhaled, remove the affected person immediately to fresh air. If the affected person is not breathing, apply artificial respiration.
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do not induce vomiting without advice from poison control center. Get medical attention immediately.

17. Other Information

NFPA ratings

Health: 3
Flammability: 0
Instability: 1
Special hazards: W
